

Background on Resolution for Mobile Video Storage Solution

The Mobile-Vision video storage solution consists of hardware and software utilized for organizing, managing, and archiving video recorded on in-car Mobile-Vision Flashback mobile video recorders, which are installed in all fleet units utilized for patrol. The hardware portion of the system primarily consists of a data storage server and a “DVD robot” which burns files to DVD for physical backup and/or for use in court. Both of these hardware components have reached ‘end of life’ status and are no longer able to be warrantied.

The Resolution before you requests BOT approval to purchase this system at a cost not to exceed \$14,000. This expenditure was planned and included in the 2017 budget.

A RESOLUTION AUTHORIZING THE PURCHASE OF AN UPGRADE TO THE EXISTING VIDEO SERVER AND VIDEO STORAGE EQUIPMENT LOCATED AT THE VILLAGE POLICE DEPARTMENT FACILITY
