To: "bot@barringtonhills-il.gov" <bot@barringtonhills-il.gov>

Please include the attached documents for public record - thank you. The aerial photo is provided to you in color which documents (in this photo) on the left side the two man made trenches that were constructed by St. Marks Church and resident Micek's that illegally direct stormwater into the pond at 335 Ridge Road. When this pond is full - the stormwater overflows and backs up into the barn at 335 then onto my property. This because of the changes in topography of both parties mentioned. The fact that my property did not flood one bit (not one drop of standing water) during the heavy rain event of last week should confirm to all involved that any standing water on the north side of my property is partially the result of this issue. Additionally Gary Saulka has complained how the heavy 'waterfall' created by the overpaid property of St. Marks parking lot has continually washed out his driveway. This waterfall crosses the Saulka septic field - floods that area and then overflows onto my land which is downhill. Another source of the flooding and contamination (high fecal count) of my land.

Only a fool would refute this evidence. I ask that you enforce all codes relevant to the redirecting of water that results in the flooding and contamination of my property. The parties in violation have been listed above. I therefore am requesting that the enforcing entity for the village of Barrington Hills - do their job. And if consideration of continuing our contract with Gewalt Hamilton/Dan Strahan as our engineering firm is being voted on this evening - then perhaps you need to look at the liability this issue has caused. Plausible Deniability.

Thank you

Pauline Boyle

Good Afternoon Anna,

I was not aware of the BOT program honoring residents who made the ultimate sacrifice - actually I am not aware of any other resident that died in the line of duty other than my husband that resided in Barrington Hills.

I believe McLaughlin mentioned something last year to me about honoring Tom, in which I replied that if this village truly wanted to honor my husband's life and legacy perhaps the 'village' should cease to flood and contaminate his property. To this day - this issue has yet to be resolved. I am sure the BOT is aware - as I provided to you the documents wherein St. Mark's Church does not meet the minimum requirements of 5 acres thereby negating any legal special use permit needed for that church and school to continue to operate. This so called church has been problematic and the source of the flooding and contamination of my property for years. I also provided to you the aerial that depicts the intentional redirecting of stormwater via man-made trenches from St. Marks Church and the Micek property into the pond at 335 Ridge Road - all illegally and a violation of Illinois Drainage Law. This pond then overfills and the water backs up and floods my property which has no outlet. This issue has yet to be addressed and from what I have been told - Strahan continues to falsify records and testimony.

This is getting off track a bit but still relative since I find it ironic that the village of Barrington Hills wishes to honor my husband yet continues to flood and contaminate his property intentionally. This done by a public works project as well as the falsified permit of St. Marks as well as ignoring other village code violations. Based upon these factors and many others - at this time I ask that you respectfully address these issues before any public proclamation to honor my husband is considered. I cite to you 765 ILCS/Right of Publicity which simply states that upon Tom's death, his name became my 'property' and I do not give to you as a representative of the Village of Barrington Hills permission to use his name or likeness in any manner. More importantly his name is not to be used to boost the annual fundraising bicycle event for veterans held here in Barrington Hills.

Additionally, and I know this is not you but it should be pointed out to those who asked that you contact me - Veterans Day is really not the day in which to honor those killed in action. The proper day of honor is Memorial Day. Veterans Day honors all veterans. Memorial Day honors those who made the ultimate sacrifice. There is a difference.

Should the village of Barrington Hills wish to address this issue further please respond and I will have my attorney contact you. Thank you.

Regards,
Pauline Boyle

Hi Pauline,

As I believe you are aware, in May the Board initiated a program for honoring Residents who have made the ultimate sacrifice for our county and community. To coincide with the upcoming Veterans Day, the Village Board would like to honor your husband with a Proclamation of Patriotic Public Service at the Board Meeting Monday, we hope you will be able to attend.

Additionally, I request the following information from you so we can construct the proclamation, please answer to the best of your ability.

1. Branch of service
2. Full name
3. Rank or title
4. A short description of his service record
5. Anything else we should know?

We would also like to post it on our facebook page on Veterans Day, if possible please send a photo or photos that you would be alright with us using for this purpose.

Thanks,
Ann
