

CMAP Bikeway Feasibility Study

Public Open House

What

The Chicago Metropolitan Agency for Planning (CMAP) is conducting a study to identify a bike route to connect the Fox River Trail and the Old Stover Trail. This connection would fill a gap in the region's network of bikeways and allow people to travel by bike from Busse Woods to the Fox River as well as many points in between.

Who

This study is being conducted in partnership with the Villages of Barrington, Barrington Hills, Carpentersville, Hoffman Estates, and South Barrington, the Illinois Department of Transportation, Cook and Kane Counties, and the Forest Preserve District of Cook County.

How

Please join us as we explore the possibilities and help us identify the opportunities for a safe and comfortable bike route in this area.

Tell us what you think...

Public Open House
Thursday, February 5th
6:00 PM - 8:00 PM

Triphahn Center
1685 W. Higgins Road
Hoffman Estates
