Dear Village Board Members,

I am a resident of Barrington Hills writing to you regarding my views on the Lighting Ordinance.

I am requesting that when this is brought to a final vote and if it passes, that it becomes effective that date going forward.

I have installed landscape lighting "according to the current code", it does not seem fair that I am forced to spend more money to rip out lighting that will not comply to this lighting ordinance. We have spent thousands of dollars to install this lighting according to current code and enjoy our property as we see fit. Does it seem fair to you that those residents who are at current code, now have to spend more of their hard earned money (especially in this economy where residents are being forced into foreclosure) to rip out or change their lighting??? This ordinance should not go backwards, but forward.

Sincerely,

Diana Trzaska
