Wendy,

I did not address this. We have been very busy with our regular customer base and I put a low priority on this since you already have been working with your regular contractor. I want to work with the Village of Barrington Hills and would like to revisit this soon.

The only thing that we needed to work on was the ductwork upgrade in the detectives office and maybe a thermostat in the board room. I need a follow up visit for the ductwork to look above the ceiling.

Thank You.

Tim, Just wanted to touch base to see if you had completed your analysis and recommendations for the Village system and when we might expect the results. Please let me know where we stand.
