Please read both emails below to understand where Eagle Scout stand with our CW Research project.

PS: Bob, please send me contact info for Garden Council that you are working with concerning Grotto project design.

Jon,

Thanks very much for your note. I appreciated mtg with you as well.

As to the opportunity for you with this project, know that I made suggestions of things at the end of our walk through the cemetery that we both could see as needs.

I'm hopeful that your scoutmaster can reconsider.

Thanks again.

Dan

Mr. Mjolsness,

First of all, I'd like to thank you for meeting with me at the memorial last week. On Monday, however, I met with Mr. Chapman, the Life to Eagle coordinator for our troop. As a result of our meeting, I've come to the conclusion that there doesn't seem to be a viable Eagle project at this site. I think that the work that needs to be done at that site would be a great project for service hours, but there isn't enough work to be done that I could plan out by myself and have boys from my troop do the work. The work that needs to be done there seems to be pre-planned and I would just be coming in to do the work. I am sorry for letting you down on this; perhaps at some point, I would be able to come back and help with this, but right now I will be working on my Eagle project. I will bring this project up with our Troop to let others know that there are service hours available at your church.

Sincerely,

Jon Durden
