[DS]

Please obtain a copy of a active municipal road adoption program.

Purpose and scope outline in the following.

Yes, I would agree that we should have such a program. We can announce the adoption of the road and at the same time call for local groups or individuals who would like to do the same on other roads - perhaps list a few roads that we would like to have adopted?

Attached are the application materials for an adopt-a-roadway program in Gurnee. Vernon Hills, Libertyville, and Lincolnshire, among others, have similar programs. I've also attached a copy of the Illinois Adopt-A-Highway Act which applies to municipal programs of this sort. The intent of the act seems to be to ensure that those willing to volunteer in this area are aware of the hazards associated with being in the right-of-way and are appropriately trained and led by responsible adults.

Attached are the results of previous research into the adopt-a-roadway program in Illinois.
